When the Clearing House has informed NOREXECO about a new HALT status, NOREXECO shall, without undue delay, suspend all Orders and the trading right for relevant Trade Members.

7.13

A Trade that is to be booked on a clearing account with HALT status will be rejected by the Clearing House. The Clearing House shall notify NOREXECO immediately of such rejection. NOREXECO shall, without undue delay inform the participants in the Trade and cancel the Trade in the ETS.

7.14

NOREXECO shall not disclose the identity of a Trade Member in connection with Trades or in connection with the handling of any Order, unless NOREXECO by a public authority or regulatory body is required to disclose such information.

8. Electronic Trading System

8.1

An Order may be entered into the ETS by use of the web based user interface of the ETS or electronically via an API supported by the ETS pursuant to the procedures set forth in Appendix 4 - Electronic Trading System ETS – Agreement for ETS or, alternatively, by requesting the NMS to act on the Trade Member's behalf, ref chapter 9.

- 1) A Trader given access to the web based user interface of the ETS may during the Trading hours
 - a) enter Orders directly into ETS
 - i) the Order will be checked for matching with one or more resting Orders. Depending on the conditions of the new Order and resting Orders, the new Order may be partly filled and the remaining volume will be placed in the Orderbook according to its price and time of entry.
 - ii) if the Order crosses the market, i.e. the price is better than one or more resting Orders on the other side, the price of the incoming Order will be used as the trade price. The incoming Order will be matched with resting Orders until the volume of the incoming Order has been filled, or no more resting Orders can be matched.
 - iii) if no match, the Order will be placed in the Orderbook according to its price and time of entry or be canceled.
 - b) Aggress the best available Order according to priority in the Orderbook. Aggressing a Sell Order creates a Buy Order on behalf of the Aggressor.

Upon receipt of a written claim NOREXECO will immediately notify the Counterparty in the relevant Trade about such claim.

A Trade Member who fails to follow such procedures will be deemed to have accepted the Trade on the terms on which it is created, unless the Trade Member requests that NOREXECO ask the other Trade Member to accept a cancellation of the Trade, and the other Trade Member is willing to cancel the Trade.

After receiving a claim concerning a Trade Error, NOREXECO will send an e-mail to the Trade Member invoking the error, which includes documentation of the Order, e.g. e-mail communication with the parties to the Trade or, if relevant, a computer file containing phone conversations recorded by NOREXECO. NOREXECO shall present such documentation without undue delay following NOREXECO's receipt of the claim.

12.2

In a case of a claimed Trade Error where the Order has been placed via NMS, the NMS recorded phone conversations and email correspondence relating to the Trade Error shall be deemed a source of correct information.
